

§9.2

(b) The goal of this program is to encourage manufacturers to provide consumers, at the point of sale, with information on the energy consumption and energy efficiency of household appliances and equipment. Such information, presented in a uniform manner readily understandable to consumers, would be displayed on labels attached to or otherwise provided with the appliances or equipment. The labels will include a system intended to make it possible for consumers to compare by cost or otherwise the energy consumption and energy efficiency characteristics when purchasing household appliances and equipment and to select those that can effect savings in energy consumption.

§9.2 Definitions.

(a) The term *Secretary* means the Secretary of Commerce.

(b) The term *manufacturer* means any person engaged in the manufacturing or assembling of new appliances or equipment in the United States, or in the importing of such products for sale or resale, or any person whose brand or trademark appears on such products who owns such brand or trademark and has authorized its use on such products, if the brand or trademark of the person actually manufacturing or assembling the products does not appear on the products.

(c) The term *energy consumption* means the energy resources used by appliances or equipment under conditions of use approximating actual operating conditions insofar as practical as determined through test procedures contained or identified in a final Voluntary Energy Conservation Specification published under §9.4(e).

(d) The term *energy efficiency* means the energy use of appliances or equipment relative to their output of services, as determined through test procedures contained or identified in a final Voluntary Energy Conservation Specification published under §9.4(e).

(e) The term *consumer* means the first person who purchases a new appliance or item of equipment for purposes other than resale.

(f) The term *class of appliance or equipment* means a group of appliances or equipment whose functions or fea-

15 CFR Subtitle A (1-12 Edition)

tures are similar, and whose functional output covers a range that may be of interest to consumers.

(g) The term *Specification* means a Voluntary Energy Conservation Specification developed under §9.4.

(h) The term *label* means printed matter affixed to or otherwise provided with appliances or equipment and meeting all the requirements called for in a Voluntary Energy Conservation Specification published under §9.4(e).

[38 FR 29574, Oct. 26, 1973, as amended at 40 FR 33966, Aug. 13, 1975]

§9.3 Appliances and equipment included in program.

The appliances and equipment included in this program are room and central air conditioners, household refrigerators, home freezers, clothes washers, dishwashers, clothes dryers, kitchen ranges and ovens, water heaters, comfort heating equipment, and television receivers. Additional appliances and equipment may be included in the program by the Secretary pursuant to rule making procedures as set out in 5 U.S.C. 553. Individual units of appliances and equipment manufactured for export are not included in this program.

[38 FR 29574, Oct. 26, 1973, as amended at 40 FR 33966, Aug. 13, 1975]

§9.4 Development of voluntary energy conservation specifications.

(a) The Secretary in cooperation with appropriate Federal agencies and in cooperation with affected manufacturers, distributors, retailers, consumers, environmentalists, and other interested parties shall develop proposed Specifications for the specific classes of appliances and equipment covered under §9.3.

(b) Each Specification shall as a minimum include:

(1) A description of the class of appliance or equipment covered by the Specification, listing the distribution of energy efficiencies for that class of appliance or equipment.

(2) Listings or descriptions of test methods to be used in measuring the energy consumption and/or energy efficiency characteristics of the class of appliance or equipment.
